

Author Presentations by Laura Lee Gulledge

How do you go from doodling on your homework...to drawing in sketchbooks...to breaking into graphic novels? How do you get your ideas out using words and pictures? YA graphic novelist Laura Lee Gulledge takes you behind the scenes of her creative process in this inspiring & informative presentation!

Laura Lee breaks down how to make a graphic novel using original art and video shorts to illustrate the process. She then demonstrates by drawing LIVE, creating a crowd-sourced character with the class. If there is time, she also works with them to write & sketch out the character's story as a six panel comic. Laura Lee closes by answering students individual questions, passing out Artistic Licenses, and giving handouts so they may create their own six panel mini comics.

- Presentations run 45-90 minutes. Requires access to a laptop/ projector & drawing surface.
